

METL Manual

Easy
Install

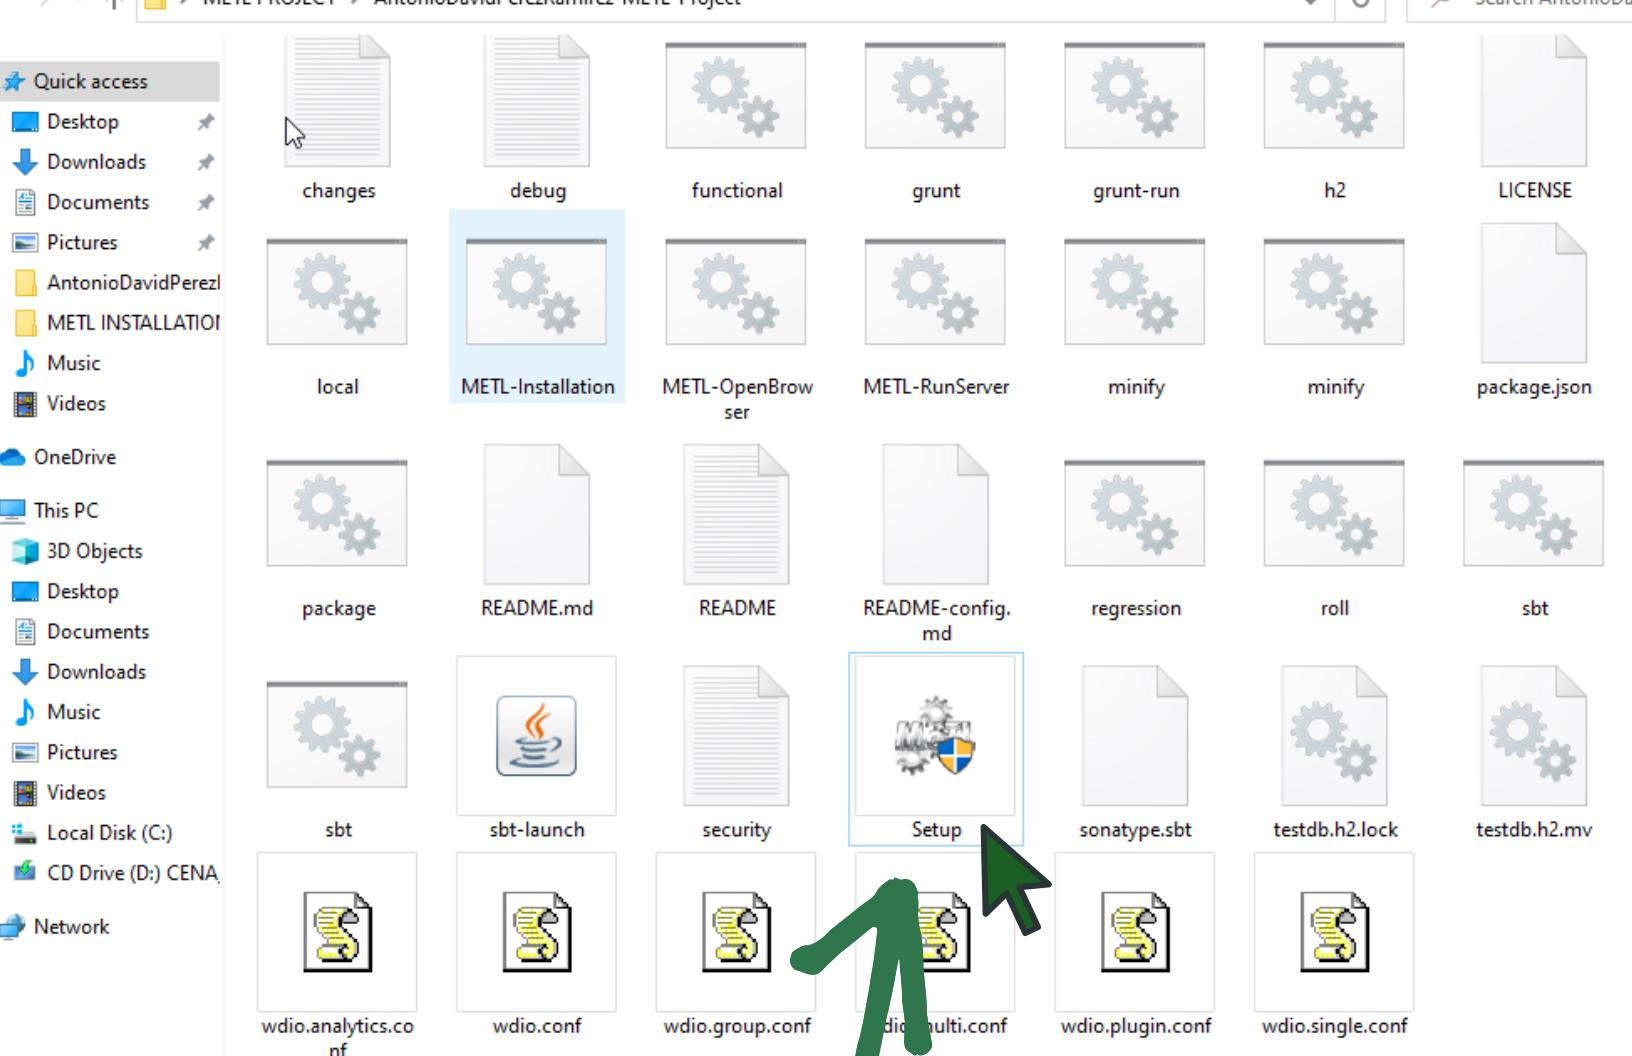

Visual Installation Guide

This manual is designed to provide a visual guide throughout the installation process. It is aimed at people who are unsure of the installation process and need additional guidance.

ANTONIO DAVID PEREZ RAMIREZ

EXPRESS GUIDE

THIS IS FOR PEOPLE WHO ARE FAMILIAR WITH
PROGRAMMING AND TECHNOLOGY

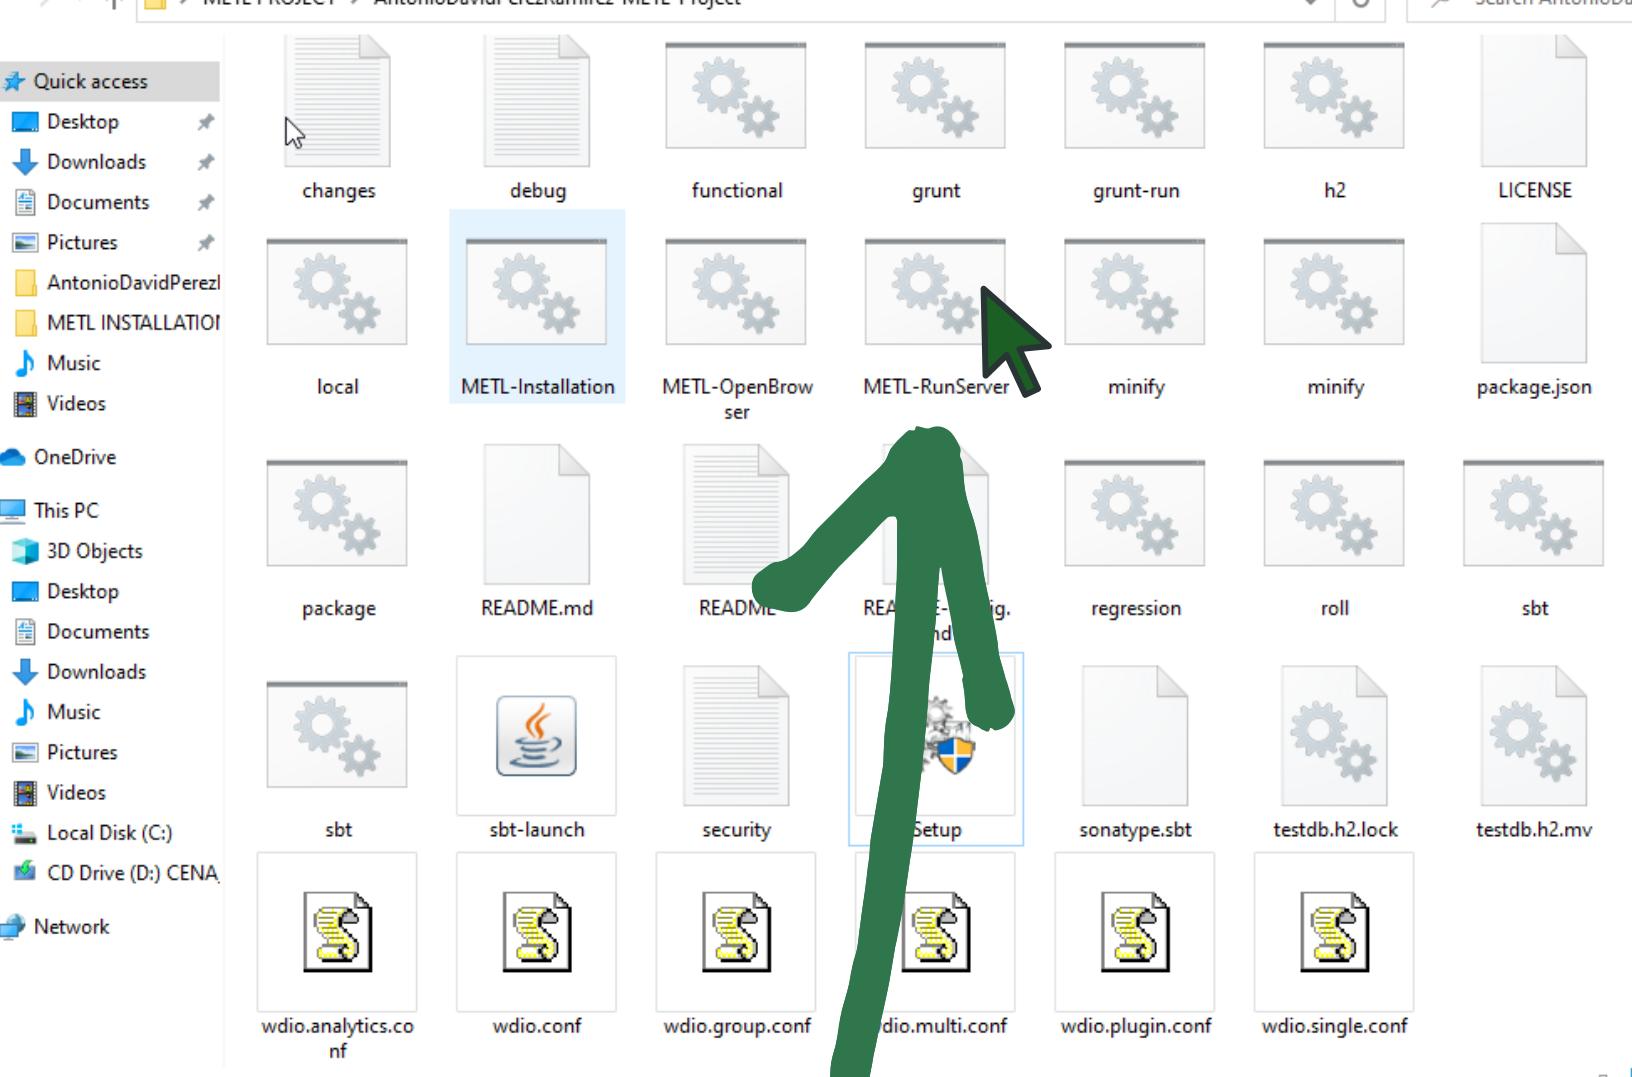

STEP 1 - INSTALLATION

RUN SETUP.EXE

The Setup.exe file will begin the METL installation process and will install the following programs that are required to run METL on your local machine:

*Without these programs METL will not be able to run properly.

- **JAVA 1.8.261**
- **NODE.JS 12.18.3**
- **NPM 12.18.3**
- **SBT 1.3.13**
- **GIT 2.27**

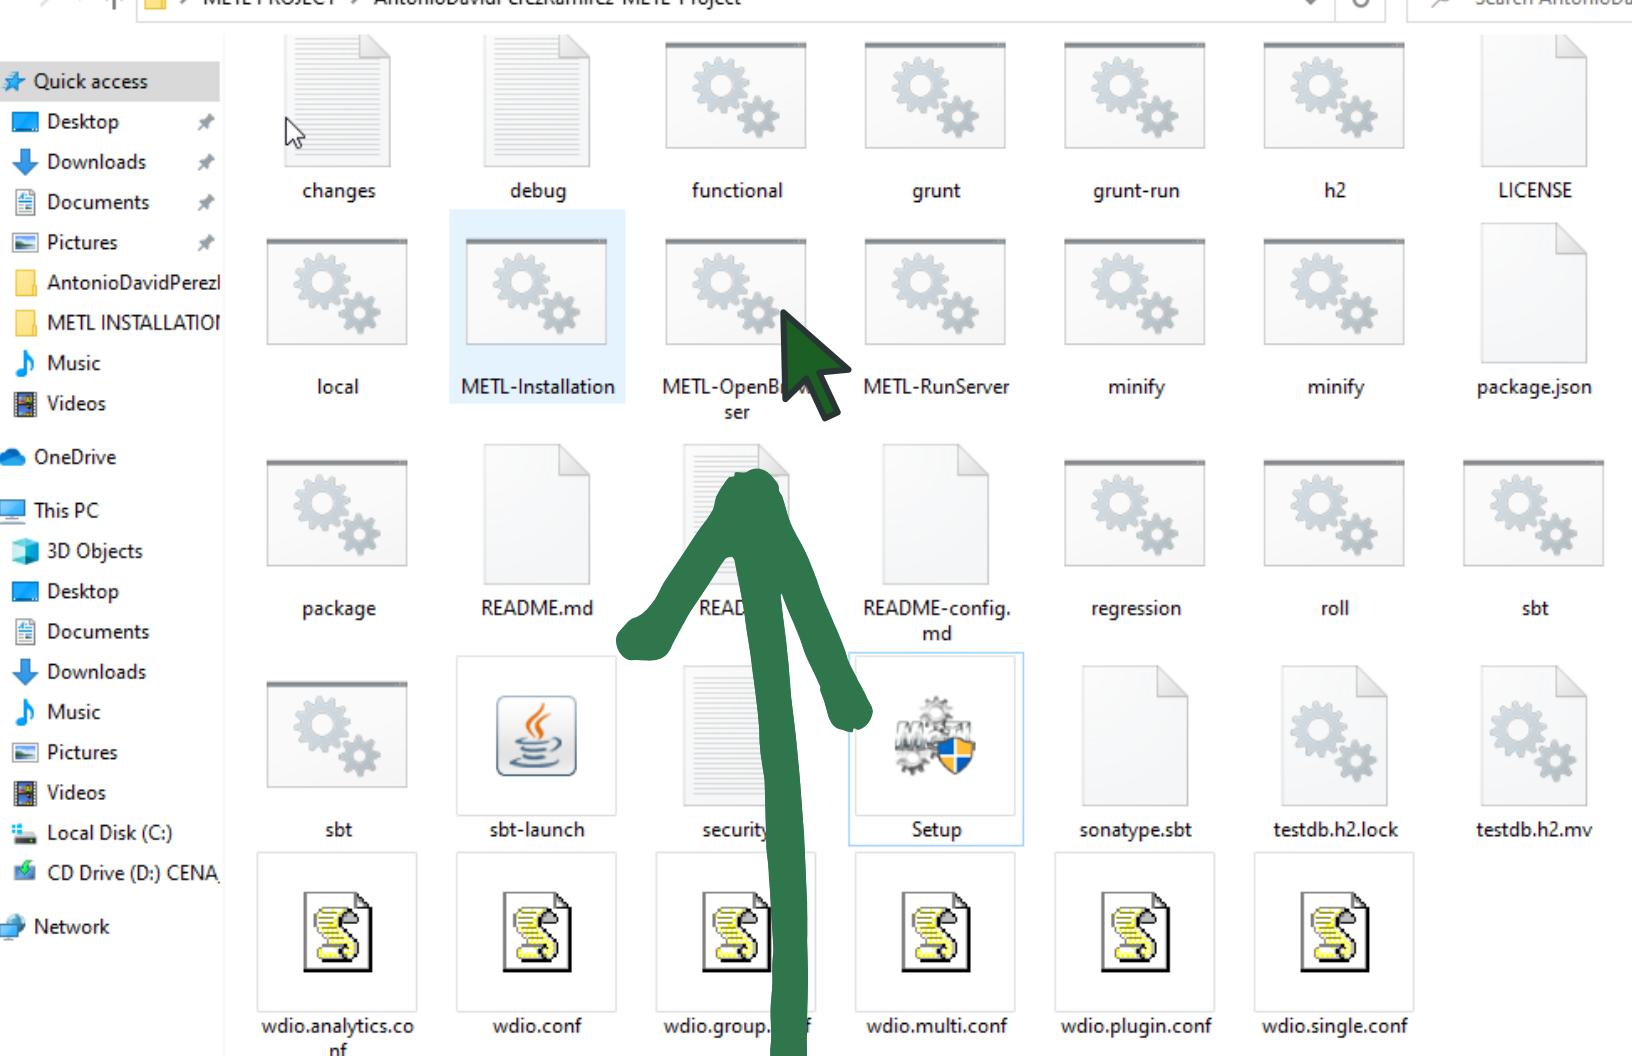

STEP 2 - SETUP SERVER

RUN METL-RUNSERVER.BAT

The Setup.exe file will begin the METL installation process and will install the following programs that are required to run METL on your local machine:

*Without these programs METL will not be able to run properly.

FOLLOW THE
INSTRUCTIONS IN
THE COMMAND LINE
TO COMPLETE
SERVER SETUP

STEP 3 - OPEN METL

RUN METL-OPENBROWSER.BAT

The METL-OpenBrowser.bat file will open the default web browser and open METL on your local server.

If this does not work, you can simply go to:

<http://localhost:8080/>

This completes the installation and you can enjoy METL.

SIMPLY CLICK

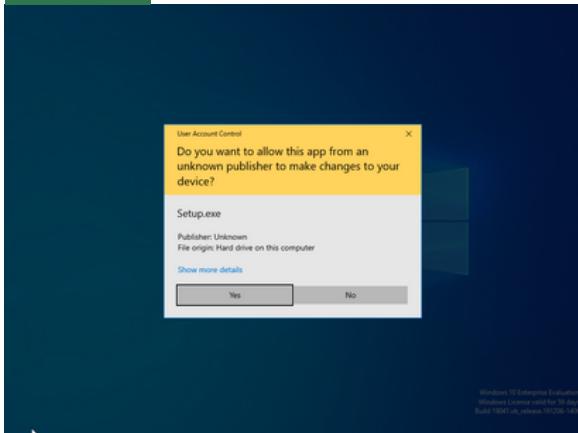

METL-

OPENBROWSER.BAT

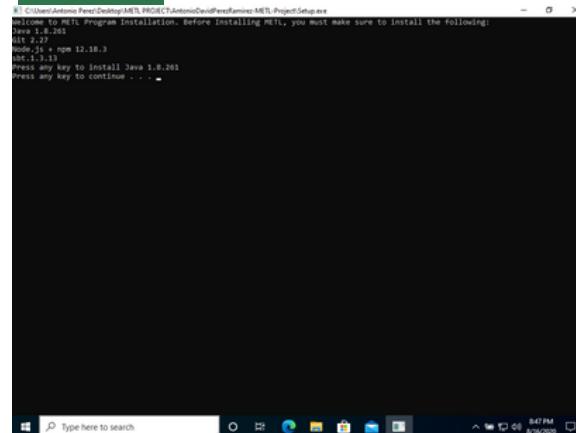

TO OPEN METL.

STEP BY STEP GUIDE

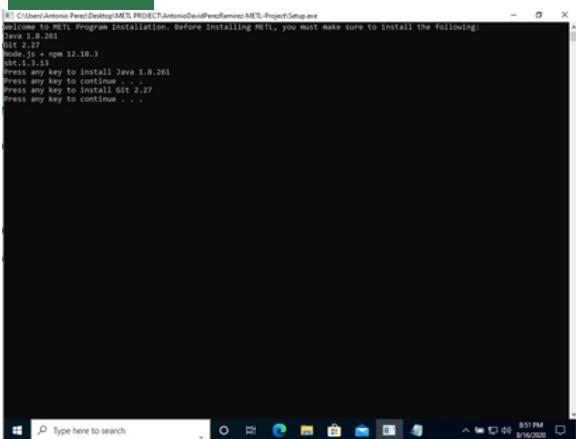

THIS IS FOR PEOPLE WHO ARE NOT
EXPERIENCED WITH PROGRAMMING OR
TECHNOLOGY AND NEED VISUAL GUIDANCE

1
